What's your biggest obstacle when it comes to making value-based care work today?

Phyx Primary Care

We conduct Innovation Labs with frontline primary care physicians to evaluate AI tools and emerging payment models in practice and inform physician organizations, innovators and advocates with accurate, unbiased findings on works and what does not.

Together, we help drive the adoption of innovations that will truly serve physicians and patients and fix primary care.

https://www.phyxprimarycare.org/

Phyx Primary Care

Ongoing Labs

- Ambient Listening AI
- Clinical Review AI
- Value-based Payment
- Direct Primary Care

Planned Labs

- Employer Based Direct Primary Care
- Comparison of Value-based Payment and Direct Primary Care
- AI for EHR Inbox

Practicing Value-based Care with AI (n=120)

AI Assistant shown to be essential: improving risk management accuracy and quality while relieving burden and burnout.

"The assistant finds new diagnoses buried in the record- things I'd miss. That can be the difference between staying afloat or falling behind".

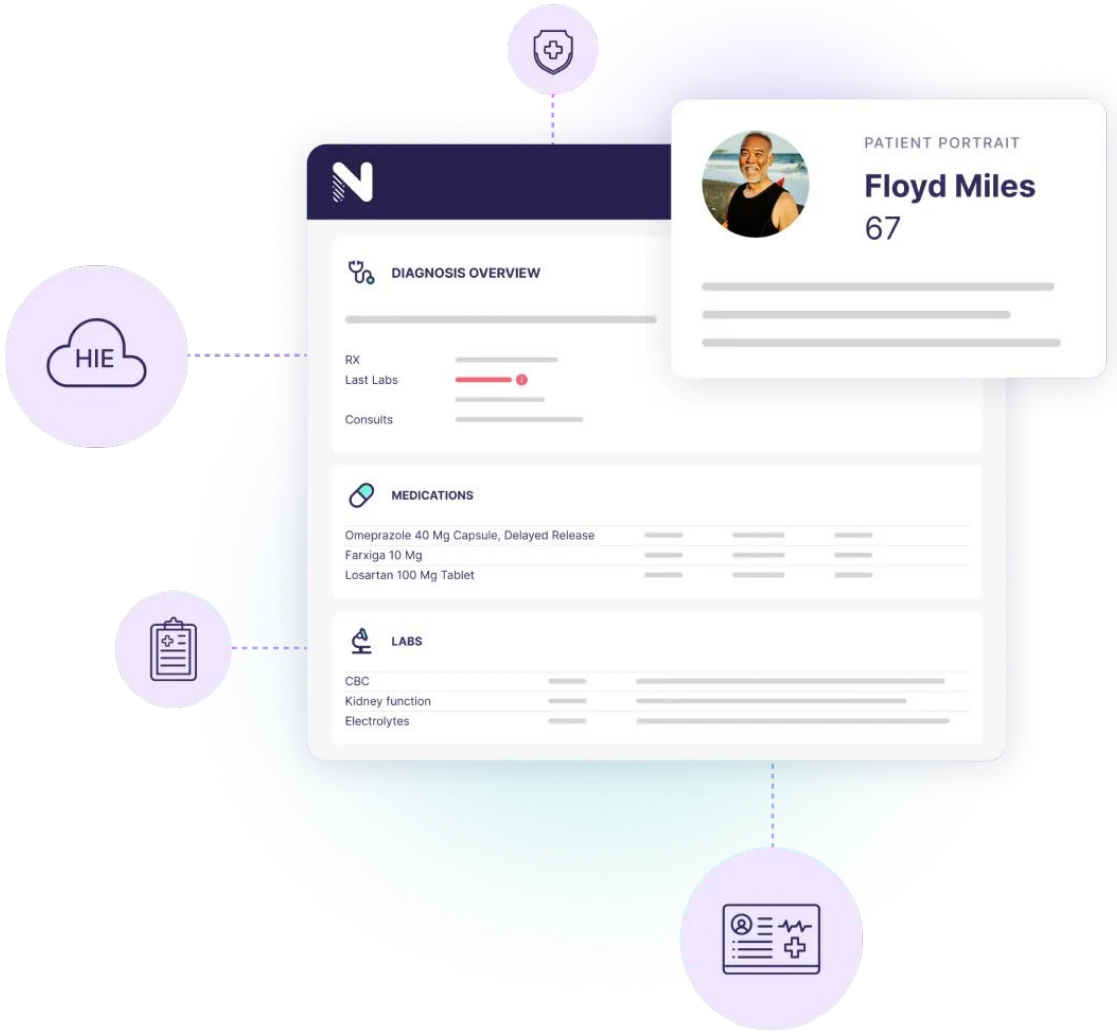

Value-based payment is just derivative of comprehensive patient care.

Practicing Value-based Care with AI (n=120)

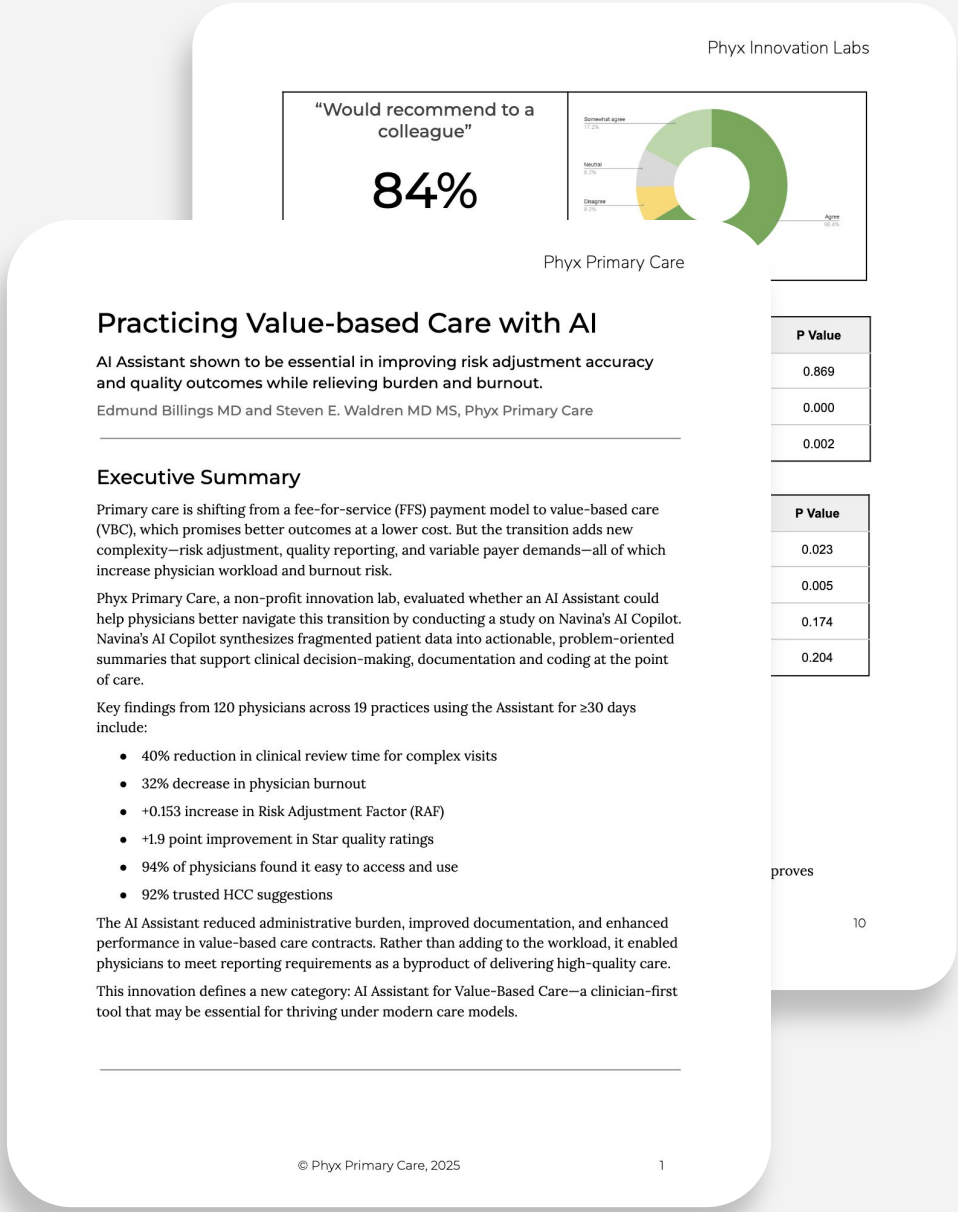

Why it works: The Special Sauce

- Targets administrative burden
- Data & “clinician-first” integration
- Value-based Care drives Value-based Payment
